

Analysis & Visualizations

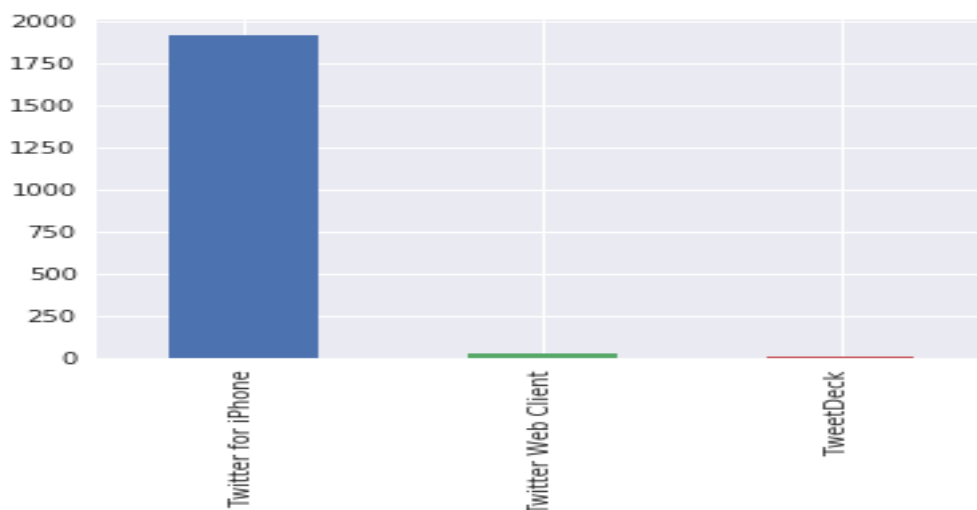

1- Which dog_stage is the most classified?

Most dogs are classified into the "Pupper" stage: "A dog is a small dog, and it is usually younger. It can be equal, if Not more mature than most dogs. A dog who is inexperienced, unfamiliar, or in any way unprepared for Responsibilities associated with being a dog.

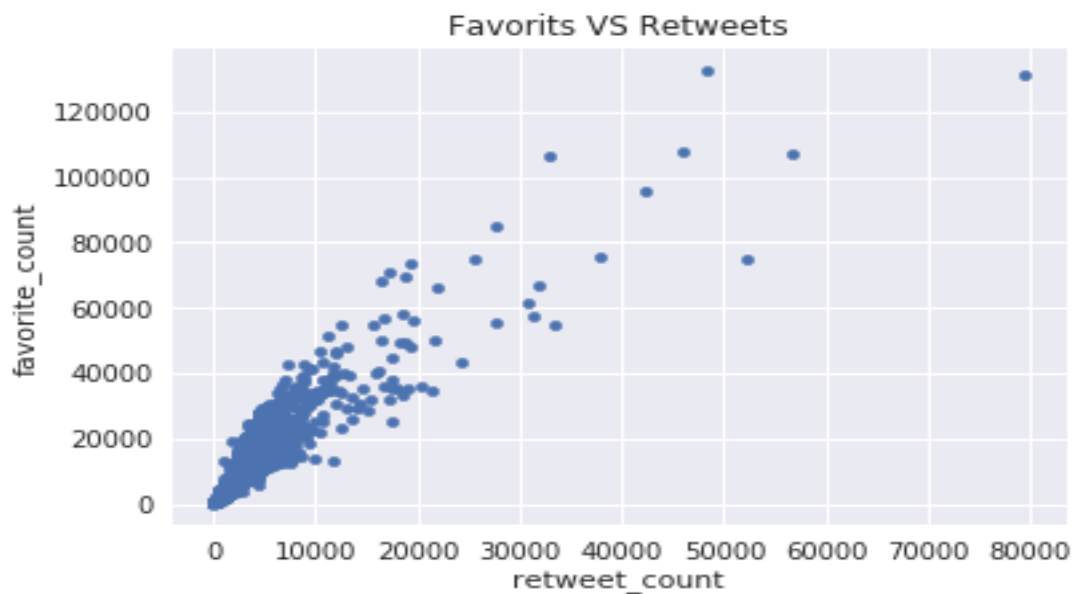

- pupper -----→201
- doggo -----→ 63
- puppo -----→ 22
- doggo, pupper---→ 8
- floofer -----→ 7
- doggo, puppo ---→ 1
- doggo, floofer---→1

2-

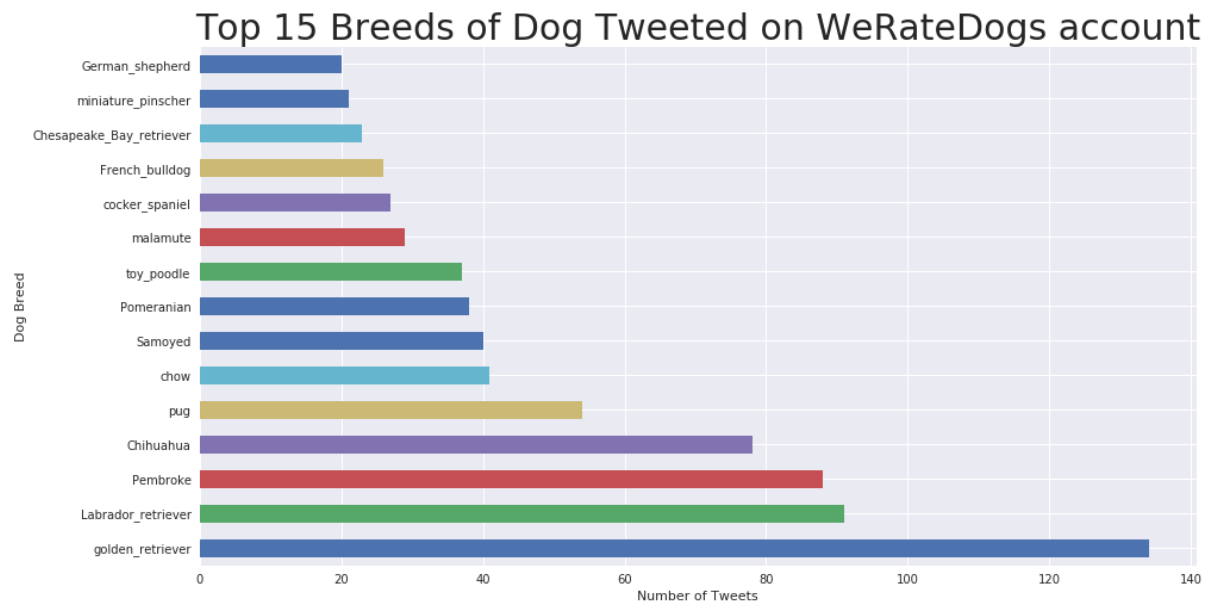

2-The Twitter app is the most widely used platform of twitter users use the mobile iPhone app to originate tweets. The other use the Twitter web client (mobile and desktop) and TweetDeck.

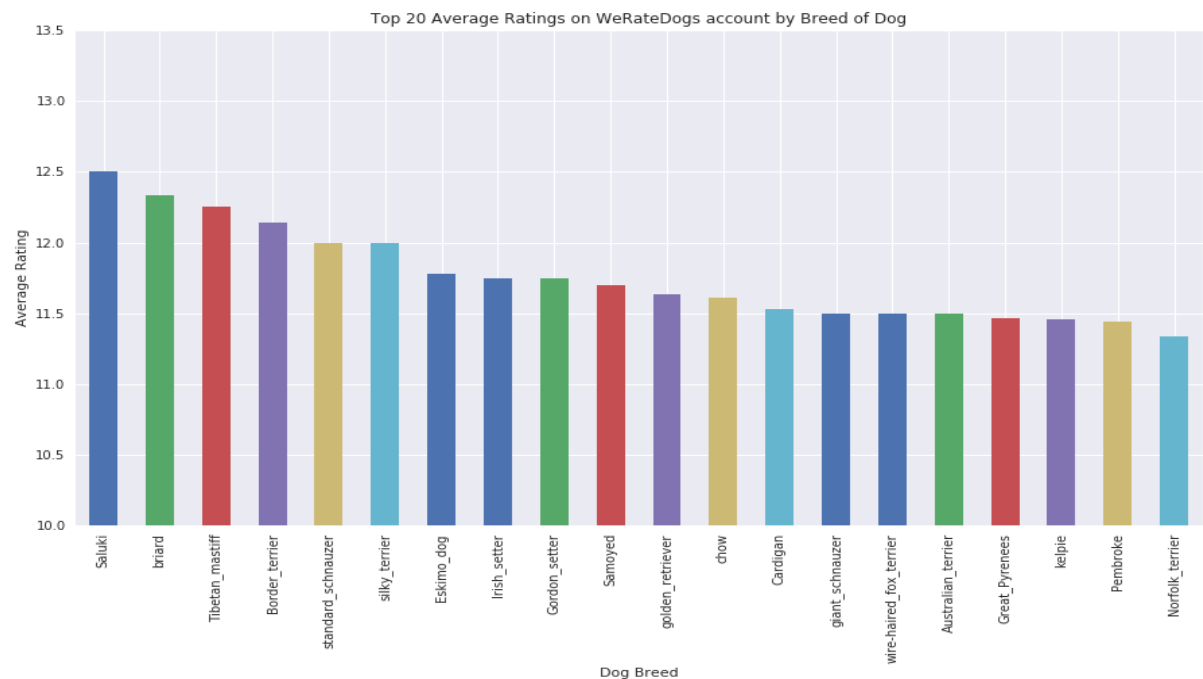

- Twitter for iPhone → 1915
- Twitter Web Client → 28
- TweetDeck → 11

3-There is a strong positive correlation between number of retweets and favorite count. It does seem reasonable that the more a post is retweeted, the more eyes view the post, the more favorites the post receives.

4-There are more golden Retrievers than any other dog in the dataset. Labrador Retrievers are the second most common.

5-So the top breeds by rating are Bouvier des Flandres, Saluki, Briard, Tibetan Mastiff and Border Terrier. These breeds are not as well-known as the breeds in our top tweeted dogs. Quickly checking I see that there is only one rating for Bouvier des Flandres. So this plot might be misleading. Let's redo the chart but include only breeds with at least 10 ratings.
